

Why Telehealth at School Works Wonders

Unlocking the Potential of Telehealth Speech Therapy at School

FASTER ACCESS

Get the support your child needs during school hours, rather than juggling a high-demand after-school timeslot.

LEARNING ENVIRONMENT

Children are already in a learning mindset at school. After school, kids can be tired and not be able to make the most out of their session.

MINIMAL DISRUPTION

School settings often have ample room and technology to facilitate more effective sessions. To participate, your child will require a device connected to Zoom, and the presence of an adult for support.

SCHEDULING CONVENIENCE

School hours can often align with parents' work schedules, making it easier to arrange therapy sessions without disrupting the family's daily routine.

REGULAR UPDATES

We provide regular progress reports for parents and educators, keeping everyone on the same page about your child's goals and achievements. Plus, you can join the Zoom session from anywhere!

COLLABORATING WITH SCHOOL STAFF

Our therapists take a holistic approach to your child's development, training and educating school staff on how to support your child with more practice time so they can achieve their goals faster.

FLEXIBLE SOLUTIONS

We understand each school may have its policies & paperwork. Reach out to us, or let us contact your school to find a tailored solution.

How to Get Started

Unlocking the Potential of Telehealth Speech Therapy at School

Book a Free Consult with Pop

Book a free consultation phone call with our experienced speech pathologists at www.popfamily.au to discover how you and your child can get started sooner.

Start the Discussion with your School

INTRODUCING POP & SPEECH THERAPY

Explain to your school that your child is engaging in speech therapy with a telehealth speech pathology service - Pop! Let them know that sessions will occur on an ongoing basis, either weekly or fortnightly, and you would like their support in facilitating these sessions.

YOUR SCHOOL CHECKLIST

Check with your school that they can provide:

- A quiet space for the session, for example, an office, space in the library, or an empty classroom.
- An adult to support your child during the session. They will need to be available to help set up the device and attend the session, which will go for 30-60 mins.
- A device to use such as an iPad, laptop or desktop computer.

DISCUSS SESSION TIMES

Coordinate with your school to determine convenient session days and times. You can inform the Pop team of your preferences, or our Pop Support Crew can reach out to your school directly. Just share your school's contact details and, if available, the child's teacher's email address.

Feel confident advocating for your child's speech therapy during school hours. We're here to help and support you!
